CONSCIOUS DISCIPLINE

I will be using Conscious Discipline this year again. This is a behavior management program that is consistent, helpful and uses love and patience to deal with classroom issues.

The program and books (Shubert Series) provide concrete examples of how to be kind, safe and helpful. We are reading the Shubert Books this fall to prepare for how to

work together in class and treat each other with respect and kindness. We will practice being safe and helpful to others. For more information: www.consciousdiscipline.com
